Date :- February 4,2014

MSF 5 Undertakings

MSF- 5 Undertakings

Implementation of One WaSH Program as per the WIF

Implementation of Signed MoUs at all levels

Ensuring the Functionality of WaSH services

Establishment of robust Monitoring and Evaluation system

Development of water and improved Sanitation safety Procedures, capacity and processes

Undertaking # 1: Implementation of One WaSH Program as per the WIF

Progress to Date

- One WaSH Program Document with annual breakdown of the Plan and budget prepared.
- POM for the Consolidated WaSH Account implementation under preparation.

Outstanding Activities

- Update UAP II based on the results of 2003 EFY NWI, EMIS and HMIS indicators.

Undertaking # 2: implementation of Signed MoUs at all levels

Progress to Date

- MoU Disseminated at all levels.
- Most regions adapted and signed Regional MoUs based on the federal MoU.
- WaSH plans approved

Outstanding Activities

- Strengthen WaSH Coordination at Federal, Regional and Woreda levels and establish WaSH PMUs at each Ministry and Bureaus

Undertaking # 3: Ensuring the Functionality of WaSH services

Progress to Date

- Urban water O&M Manual prepared
- Rural water Operation and Maintenance Management Manual for point water schemes prepared
- Sanitation Marketing Guideline prepared

Outstanding Activities

- Development of National RWS O&MM Strategic Framework and Generic O&MM manual (ongoing)
- Make WASHCOs legalization to take place in practise

Undertaking # 4: Establishment of robust Monitoring and Evaluation system

Progress to Date

- NWI 2003 EFY data – released in MIS website
- Somali Inventory started
- 2012 High Level Commitments monitoring system established
- One JTR-8 conducted

Outstanding Activities

- Scaling up the WASH MIS from pilot woredas
- Improve the functionality of WASH MIS
- Prepare the NWI updating strategy and plan with budget

Undertaking # 5: Development of water and improved Sanitation safety Procedures, capacity and processes

Progress to Date

- Monitoring for Safe Water Program started with 2 utilities and 2 regional health labs
- RWS water safety plan capacity building carried out with CSOs and COWASH and some pilot WSPs prepared
- RWS water safety plan training material preparation I progress
- WHO launched project on *“Building adaptation to climate change in health in Ethiopia through resilient WASH”*

Outstanding Activities

- National level plan to support regions on water and improved sanitation safety management

JTR-VIII Themes

**Readiness for
OWNP**

• **Gambella**

**Urban WASH –
Sanitation and
Non-Revenue Water**

• **Oromiya**

**Rural WASH –
CLTSH/Self
supply**

• **SNNP**

Major JTR 8 findings

- The start-up of One WASH needs urgent awareness creation and capacity building in Regions'
 - Organizational development
 - WASH M&E development and updating
 - Coordination structure establishment
- Availability of Regional Government Funds for One WASH implementation not confirmed

Major JTR 8 findings

- Urban sanitation status is very low
- Coordination, planning and monitoring of urban sanitation is very low
- Urban sanitation priority is very low and budgets allocated for urban sanitation are almost nil
- Organizational structures of towns do not address urban sanitation
- Urban sanitation facilities are poor and disposal sites are no to standard

Major JTR 8 findings

- Agriculture is implementing massive household agricultural wells plan.
- Coordination with Self Supply planning and implementation with Agriculture needs to be strengthened
- Need to strengthen the linkage with the existing MFIs and making SS credit provisions
- Rushing for records of latrines by skipping or incomplete actual process of CLTSH lead to backing to the OD

THANK YOU
