

# **WATER RESOURCES MANAGEMENT JOINT TECHNICAL REVIEW**

**WRM JTR Kick-off Meeting**

**19<sup>th</sup> April 2018**

**Addis Ababa**

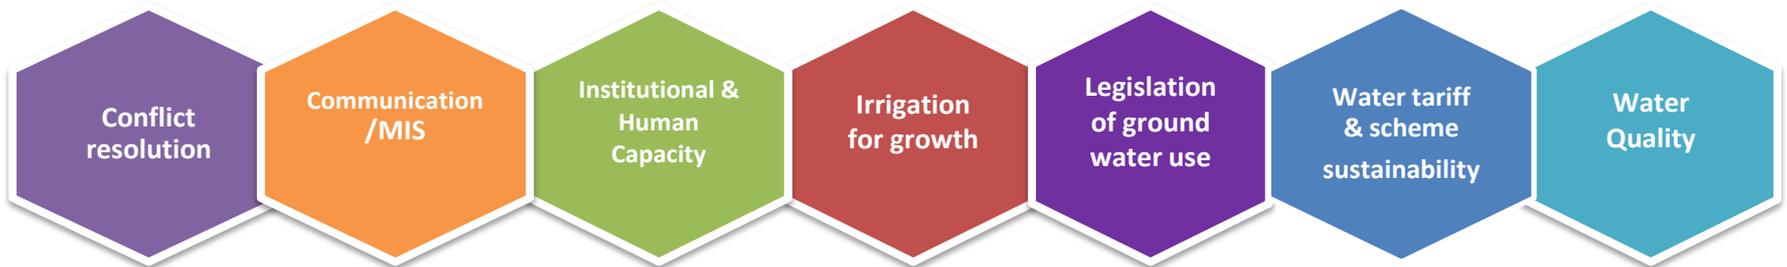

# Background

- **November 2016:** WRM-SG Meeting on WRM priorities
- **December 2016:** The synthesis note structured and organized the main issues raised by the sector
- **August 2017:** Priorities discussed and agreed through inter-ministerial meeting (**MoWIE, MoANR & MoEFCC**)
- **September 2017:** Priorities discussed with stakeholders and interest groups identified

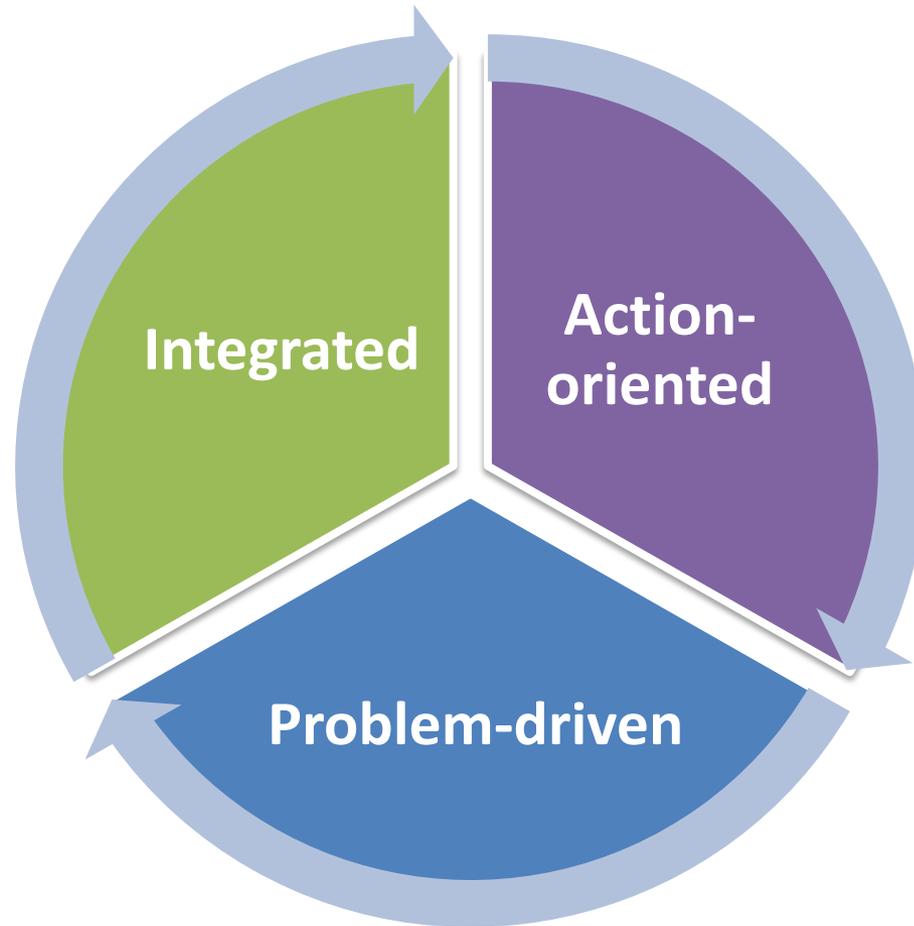

# Objectives

- To identify key and priority [hotspot] areas
- To assess specific areas of interest in WRM and the state of WRM conditions in these hot spot areas and identify key bottlenecks & gaps
- To extract lessons learned from the research & ongoing interventions
- To widen and strengthen engagement of relevant stakeholders to support a consistent and clear WRM agenda
- To give input for the WRM programme document preparation

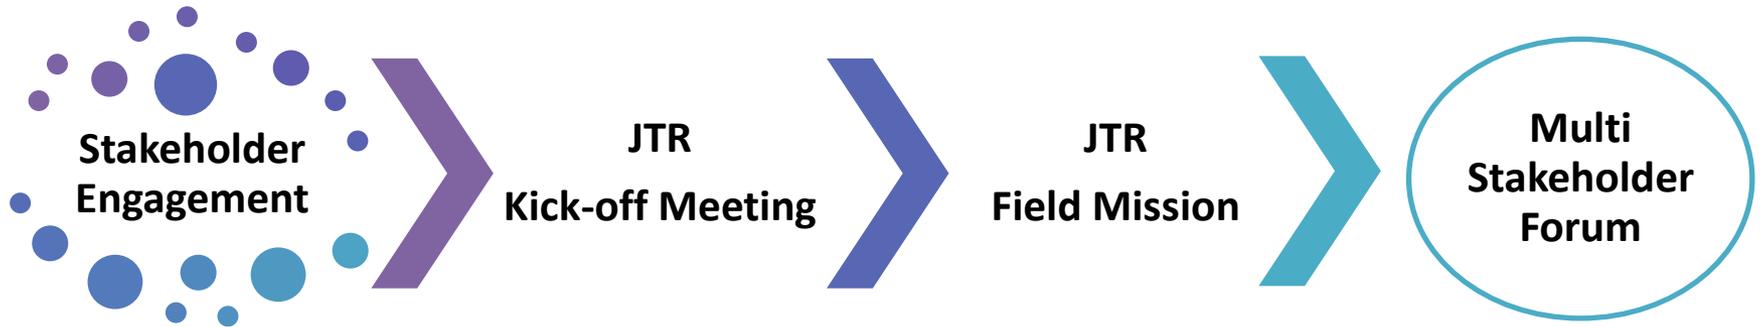

# Hotspot/priority areas

# Principles for the JTR

# JTR Process

# JTR Kick-off meeting

- Presentations on the state of WRM in Ethiopia: 7 priority areas
- Present the detailed JTR Field Mission plan

# JTR Field Mission

## GROUP-I

- Conflict Resolution/ Communication/MIS
- Water tariff/charge & scheme sustainability
- Institutional & human capacity

Awash Basin Authority

## GROUP-II

- Water quality
- Legislation of ground water use
- Institutional & human capacity

Rift Valley Lakes Basin Authority

## GROUP-III

- Irrigation for growth
