Subject: Expression of Commitment for Financing COWASH Project

It is recalled that Oromia Bureau of Finance and Economic Development (OBoFED) has signed agreement with Embassy of Finland to implement Community-Led Accelerated WASH (COWASH) project, which Oromia Bureau of Water, Mineral and Energy (OWMEB) is implementing since the agreement is entered on July 2012. The project's objective is to improve access of rural population living in Two Zones (North Shewa and Jimma) and five respective Anas/districts in these zones in order to improve WASH.

Based on this, Oromia Bureau of Water, Mineral and Energy with letter dated 18-04-2013 and reference no BBAO/305/50 has requested our Bureau to express the region's interest to Government of Finland to not only to continue to finance the project for the next three years but also to increase the financial support from ETB 44 million to ETB 72,153,550 over the period of 2006 to 2008 EFY.

Hence, our Bureau expresses its interest and commitment to increase COWASH project finance to ETB 72,153,550 for the next three EFY (2006-2008). The Bureau request OWMEB to facilitate the signing of the revised project document as per the stated commitment.
