

## List of Training Manuals Related to CMP Management Trainings

The three trainings to be given priority in CMP implementation as per the COWASH planning template are: -

- a) ToT training to Zone & Woreda WASH Team and Experts **on CMP management**, disability inclusion and women leadership in WASH (Activity 4.1.1)
- b) Train Zone & Woreda Experts on **CMP appraisal, Climate Risk Screening** & Reporting (Activity 4.1.5).
- c) Train KWT members on **CMP management**, disability inclusion, MHM and Women Empowerment in WASH (Activity 4.1.42).

So, the following is the list of the training manuals prepared by COWASH FTAT so that regions (RSU & Regional COWASH Focal Persons) can use to prepare their presentations when delivering the trainings to the relevant trainees. Except the institutional WASH training manual, all the CMP management related training materials are prepared in Amharic language and whenever required regions can translate the materials into regional working languages. The following table shows the list of **CMP management related training manuals** to be used in each training session and for which training they are going to be used is marked by **(X)** in the relevant box. **It has to be noted that although they are the major ones, they are not the only training manuals to be used in each of the above trainings as there are also other issues included in those trainings which need manuals prepared by other experts.**

It. No.	CMP Related Training Manual Title	Training title & relevant manuals for the training		
		WWT CMP management & other issues (4.1.1)	Woreda Experts CMP Appraisal & other issues (4.1.5)	KWT CMP management & other issues (4.1.42)
1	1. General issues on CMP_Phase IV	X	X	X
